Waste Traps & Pan Connectors

Self-Sealing Waste Traps

The Magna Valve is a non-return valve with an internal membrane. The valve opens to allow water to be discharged, then automatically closes to prevent foul smells and sewer gases from entering the building.

This product is very adaptable, and is suitable for installation under sinks, basins, bidets, baths and urinals.

Self Sealing Traps

Flexible Connectors

SLINKY-FIT Flexible WC Pan Connectors

SLINKY-FIT are one of the most flexible pan connectors on the market and are wire reinforced giving them strength and stability in the most flexible situations.

All with 90-114mm inlet
All with 90-110mm outlet

All SLINKY-FIT Flexible Pan Connectors have a Smart-Flo design extension tube. The material is specifically shaped so anything passing through hits a smooth point, making every ridge point towards the soil pipe.

Easy-Fit Rigid WC Pan Connectors

Our rigid pan connectors are made from a high quality polypropylene plastic with an excellent rubber sealing washer.

The internal rubber gasket also has a unique reseeding feature meaning the seal with the pan spigot is extremely water tight.

All with 90-114mm inlet
All with 90-110mm outlet

The seal has an extended receding rubber which provides a tighter seal. It also has circular ridges which give a stronger grip to the toilet pan

The four rubber fins fold perfectly into the soil waste pipe providing an excellent seal
