## BRINGING EXPERIENCES TO LIFE

Since 1990, the **St James** brand has been recognised for seamlessly combining iconic styling with assured quality and reliability.

Today, the **St James** Living kitchen collection brings together an exquisite portfolio of sinks and taps that have been designed to enhance any home, from the cool and contemporary to the classically traditional.

An unwavering attention to detail and the latest manufacturing technologies also ensure that our kitchen sinks and taps are beautifully designed, perfectly functional and easy to clean. The choice of styles and latest on-trend finishes have also been carefully curated to offer a solution for each and every taste.

As with all **St James** products, the Living kitchens range is manufactured using proven materials and components in order to deliver exceptional long term performance.

**ST JAMES**  
LIVING

**St James** Granite Sinks are constructed from 80% quartz sand, boasting durability and aesthetic appeal. They are crafted from a single piece of granite, ensuring longevity and a timeless appearance. The range of designs and finishes is versatile with options to suit various kitchen styles and preferences. The key features are undeniably remarkable.

The luxurious stone-like texture brings a sense of opulence, while the exceptional ease of cleaning is a practical advantage, especially for bustling households. With reassuring heat resistance of up to 280°C, it provides peace of mind during encounters with hot pans, while its nonporous composition guarantees both hygiene and long-lasting performance.

With scratch resistance, impact resistance and non-fading qualities further solidifying St James Granite Sinks as reliable and durable options for your kitchen.

Tap shown: IVY Chrome 5005CM

**St James** PVD Sinks are made from premium SUS304 stainless steel and feature a unique NANO coating which offers anti-fingerprint and scratch resistance abilities and effectively restrains the growth of bacteria.

Each sink is made with the latest sound absorbing materials designed to allow you all of the benefits and luxuries that come from a stainless-steel sink, without having to deal with the extra sounds that they can create.

The range consists of single and 1.5 bowl undermounts with an artisan grade brushed satin finish in an array of different colour options. Unique to this range is the PVD Belfast style sink, offering the design of a traditional Belfast sink but with a contemporary twist, with finishes in Brushed Brass & Copper.

## COMPOSITE KITCHEN SINKS

**St James** Composite Sinks are constructed from pressed composite material, with a toughened outer layer which offers great strength and can withstand high heat temperatures. The material used has antibacterial properties and a high degree of scratch and impact resistance making it less prone to mechanical damage but maintaining the same visual appeal as cast materials.

The **St James** Composite range includes stylish undermounts, traditional Belfast style sinks and inset single or 1.5 bowl options in a variety of different colours.

EMA

The EMA range of composite sinks is subtle and minimal. The seamless finish offers effortless cleaning and maintenance. The perfect choice for contemporary kitchens available in 3 finishes.

CHROME WASTE KIT INCLUDED

Coloured waste kit available - see page 29

FOOD WASTE,  
HELLO  
CONVENIENCE**

**WASTEMASTER®  
FOOD WASTE DISPOSERS**

**The WasteMaster food waste disposal unit is an essential addition to every home.**

It sits neatly beneath the kitchen sink and provides a simple, convenient, and sanitary way to handle food waste. The unit is attached directly to the sink and rather than being thrown into a bin, food waste goes straight into the WasteMaster aided by a stream of cold water from the tap. It is then quickly and quietly ground into tiny particles and despatched to wastewater treatment facilities via the drainage system.

WasteMaster units feature an ingeniously powerful magnetic motor that provides instant torque to make light work of most food items. A compact outer shell also leaves plenty of room for under-sink plumbing needed for instant hot water taps and other appliances.

**10  
YEAR  
WARRANTY**

**ST JAMES  
LIVING**

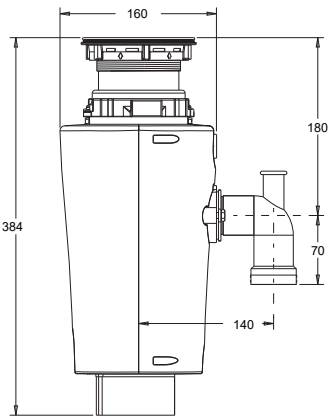

# WASTEMASTER

-  **CONVENIENCE:** WasteMaster food waste disposers make cleaning up in the kitchen easier and more convenient. Instead of food waste building-up in a bin, you can simply wash it down the drain, saving time and effort.
-  **REDUCED ODOURS:** By disposing of food waste promptly, you can reduce the chances of odours lingering in your kitchen..
-  **REDUCING FOOD WASTE:** Treating the food waste via anaerobic digestion allows it to be processed along with sewage, potentially leading to the production of biogas, which can be captured for various purposes including biosolids, which are rich in nutrients and can be used as fertiliser.
-  **IMPROVED HYGIENE:** By reducing the amount of food waste in your kitchen bins, there's less likelihood of attracting pests such as insects or rodents, which helps improve the overall hygiene of your kitchen.
-  **COST SAVINGS:** Over time, the use of a food waste disposer can provide savings on bin bags and help to potentially decrease blockages in your system.
-  **VERSATILITY:** Food waste disposers can handle a wide range of food waste, making them suitable for most kitchen environments.
-  **POWERFUL MOTOR:** Benefitting from a permanent magnetic motor that provides instant torque, the WasteMaster can quickly and easily grind up most types of food waste. Fat and grease should be disposed on separately and not via the WasteMaster.
-  **COMPACT DESIGN:** The WasteMaster boasts a compact slimline shell, to minimise the space taken up under the sink.

## GUARANTEE

At St James, we believe in providing our customers with the best quality products. That is why we guarantee our products against manufacturing defects, provided that they are installed in accordance with St James installation instructions. Our guarantee terms and conditions require that our product is used as recommended by St James in normal domestic purposes and that care, installation, and maintenance instructions have been observed. You should retain a copy of your dated invoice as proof of purchase to guarantee any claims under this warranty. The claim must be made in accordance with all applicable guarantee terms and conditions, including those detailed below.

This guarantee does not cover damage caused by improper use, wilful or accidental damage, damage caused by negligence, normal wear and tear, scuffs or scratches, improper installation, improper storage, abnormal usage (including usage in extreme temperatures), or damage caused by improper maintenance or cleaning (including the use of unidentified chemicals or cleaners containing corrosive agents). Damage caused by impurities in the water supply or acts beyond our control are not covered.

If you wish to make a claim under this guarantee, please contact St James as soon as you identify a manufacturing defect. Upon identifying a defect, do not use or install the product. Our customer service team is available to answer any questions you may have. You can contact us by phone at +353 (0)1 842 6255 or via email at [sales@instantor.ie](mailto:sales@instantor.ie). All claims must be received within the specified guarantee period, and you must include a copy of the invoice confirming the date of purchase and proof of ownership. If you are not the original purchaser of the St James product, we require that you provide proof that the benefit of this guarantee has been transferred to you.

If St James finds that a St James product has a manufacturing defect and a valid claim has been made, we will replace or repair the product at our discretion. This will be St James only obligation under this guarantee in respect of the defective product. Before agreeing to satisfy a claim, St James reserves the right to inspect the product and the installation or view images of the product and installation prior to agreeing to satisfy a claim under St James's guarantee.

St James may discontinue products and makes no promise that it will continue to hold spare products or parts for discontinued products. St James's liability under this guarantee to repair or replace a defective product that has been discontinued will be subject to St James holding the relevant product or spare parts. If a product is discontinued, St James will use reasonable endeavours to hold spare parts for that product for at least five years after discontinuation.

St James will not accept any claims if the products have been modified in any way other than those provided for in the installation instructions. To ensure that your warranty remains valid, any product or parts fitted must be St James's original product, unless previously authorised in writing by St James. Please note that any parts fitted from other sources will invalidate the guarantee.

The guarantee does not affect the purchaser's statutory rights.
